

EVA 28150

Ethylene Vinyl Acetate

Overview

EVA 28150 is a high flow Vinyl Acetate copolymer that has excellent compatibility with hydrocarbons, most waxes, and natural tackifiers. It is designed for making hot melt adhesives, sealants and wax blends.

Applications

- Adhesives
- Sealants
- Hot melt adhesives
- industrial sealants
- Wax blends

Property	Value	Unit	ASTM
Melt index (condition 230°C/2.16 kg)	150	g/10 min	D 1238
Density (g/cm ³)	0.946	g/cm ³	D 792
Vinyl Acetate Content	27.6	wt%	
Tensile Strength at break	6300	psi	D882
Elongation at break	640	%	D882
Tensile Modulus	1900	psi	D882
Hardness, Shore A	72	g	D2240
Hardness, Shore D	16	g	D2240
